DIRECTORS' REPORT

The directors submit their report and the financial statements for the year ended 31 December 2012

Principal activity and review of the business: The Company is engaged in the production and export of crude oil from El-Bunduq field. Production was at the rate of approximately 13,456 barrels per day for the year and the total for 2012 was 4 923 million barrels. The average daily production for the year ending on 31 December 2013 is expected to decrease to 11,523 barrels per day and the total for 2013 to approximately 4 206 million barrels.

Results and dividends: The loss for the year ended 31 December 2012 amounted to \$21,540 (2011 profit - \$ 6,166). The loss has been added to accumulated losses, which at 31 December 2012 totalled \$ 12,244,383 (2011 - \$ 12,222,843).

The directors do not recommend the payment of a dividend.

Future developments. The directors aim to maintain the management policies which have resulted in the Company's performance in recent years. No significant business developments are expected in the foreseeable future.

Company risks have been identified as follows:

Major project delivery

Poor delivery of any major project that underpins production growth and / or a major programme designed to enhance shareholder value.

Drilling and production risks

Exploration and production require high levels of investment and have particular economic risks and opportunities and may often involve innovative technologies. They are subject to natural hazards and other uncertainties, including those relating to the physical characteristics of an oil or natural gas field. The cost of drilling, completing or operating wells is often uncertain. The company may be required to curtail, delay or cancel drilling operations because of a variety of factors, including unexpected drilling conditions, pressure or irregularities in geological formations, equipment failures or accidents, adverse weather conditions and compliance with governmental requirements.

Security risk

Acts of terrorism that threaten our plants and offices, pipelines, transportation or computer systems would severely disrupt business operations.

Key performance indicators: The directors conduct regular review and evaluation of the Company's performance and focus on areas including capital expenditure levels against target, estimates of crude oil reserves and crude oil petroleum reserves. Reserves and production related matters are addressed on a regular basis in meetings of the Company's Technical Committee.

**STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE
FINANCIAL STATEMENTS**

The directors are responsible for preparing the report and financial statements in accordance with applicable United Kingdom law and United Kingdom Generally Accepted Accounting Practice

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing those accounts the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and estimates that are reasonable and prudent,
- state whether all applicable accounting standards have been followed, subject to any material departures discussed and explained in the financial statements, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors confirm that they have complied with these requirements and, having a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future, continue to adopt the going concern basis in preparing the financial statements

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF BUNDUQ COMPANY LIMITED

We have audited the financial statements of Bunduq Company Limited for the year ended 31 December 2012, which comprise the Profit and Loss Account, Balance Sheet, Cash Flow Statement, Statement of Total Recognised Gains and Losses and the related notes 1 to 22. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the company's members as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work for this report or for the opinions we have formed.

Respective responsibilities of directors and auditors

As explained more fully in the Directors' Responsibilities Statement set out on page 3, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by the directors, and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report and financial statements to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2012 and of its loss for the year then ended; and
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us, or
- the financial statements are not in agreement with the accounting records and returns, or
- certain disclosures of directors' remuneration specified by law are not made, or
- we have not received all the information and explanations we require for our audit.

BUNDUQ COMPANY LIMITED
NOTES TO THE FINANCIAL STATEMENTS
31 DECEMBER 2012

1. Accounting policies

The principal accounting policies of the Company are set out below. The policies are consistent with those adopted in previous years.

(a) Basis of preparation

These financial statements are prepared under the historical cost convention and in accordance with applicable UK accounting standards. In addition to the requirements of accounting standards, the accounting for exploration and production activities is governed by the Statement of Recommended Practice ('SORP') 'Accounting for Oil and Gas Exploration, Development, Production and Decommissioning Activities' issued by the UK Oil Industry Accounting Committee on 7 June 2001. These financial statements have been prepared in accordance with the provisions of the SORP.

The directors consider it appropriate to prepare the financial statements on a going concern basis, since the shareholders have agreed to provide sufficient finance as is necessary to enable the Company to meet its liabilities as they fall due for the foreseeable future.

(b) Tangible Assets

(i) Production assets

The accumulated capital costs of production facilities including the cost of development drilling are depreciated on the unit of production basis. Depreciation is calculated using the ratio of production during the year to the sum of the estimated quantity of commercially producible reserves at the end of the year. Depreciation is calculated taking into account future development costs.

(ii) Exploration expenditure

The Company follows the 'successful efforts' method in accounting for exploration costs. As a result, exploration costs are initially included in intangible assets pending determination of commercial reserves. Should the efforts be determined unsuccessful, the costs are then charged to income.

(iii) Other assets

Furniture and fittings are depreciated on a straight line basis over their expected useful lives, estimated to be 10 years.

BUNDUQ COMPANY LIMITED
NOTES TO THE FINANCIAL STATEMENTS (continued)
31 DECEMBER 2012

(c) Foreign currencies

Expenditure in currencies other than US Dollars is recorded in US Dollars at the exchange rate ruling at the date the expenditure is incurred. Assets and liabilities in currencies other than US Dollars have been translated at the rate of exchange ruling at the balance sheet date. All exchange differences are taken to the profit and loss account.

(d) Stocks

Stocks are stated at the lower of cost and net realisable value. Stocks of crude oil are valued at the average cost of production. Stocks of drilling materials, equipment and spare parts are valued on a basis which approximates to value based on the first in first out method, after making due allowance for any obsolete or slow moving items.

(e) Oil reserves

Proved developed and undeveloped reserves are estimated quantities of commercially producible oil which existing geological, geophysical and engineering data show to be recoverable in future years from known reservoirs.

(f) Effect of changes in estimates

The effect of revisions of previous estimates of proved developed and undeveloped oil reserves is taken up prospectively in unit of production calculations.

(g) End of service benefits

Provision is made in accordance with Company's personnel policy for the cost of employees' end of service benefits to cover liabilities under the United Arab Emirates Labour Law for locally engaged employees of non UAE nationality for services up to the balance sheet date.

BUNDUQ COMPANY LIMITED
NOTES TO THE FINANCIAL STATEMENTS (continued)
31 DECEMBER 2012

2. Turnover

Turnover is attributable to one continuing activity, sales of crude oil effected in Abu Dhabi.

All of the Company's turnover is receivable from United Petroleum Development Co Ltd and BP Exploration Company Ltd as shareholders in Bunduq Company Ltd. Prices and terms of settlement for these transactions are in accordance with an agreement between the shareholders dated 18th December, 1970.

3. Segmental information

The operations of the Company constitute one continuing class of business, the exploration for and production of oil, offshore in the Middle East.

4. Royalty

Royalty is calculated at 12.5% (2011: 12.5%) of gross sales at posted prices, the royalty amount of \$ 72,808,936 (2011: \$ 55,294,656) is included in cost of sales.

- a) The Company's turnover is entirely derived from the sales of crude oil to its shareholders or their wholly owned subsidiary companies. The invoiced sales are in proportion to the quantity of crude oil lifted. The oil sales to United Petroleum Development Co. Ltd (Japan) ("UPD") are split equally between the Qatar and Abu Dhabi branch.
- b) UPD, through its Head Office in Tokyo, second staff and provide technical support to the Company. The related costs are included in cost of sales.
- c) The shareholders' advances are used to fund the Company's operations - refer note 15.

22. OTHER VENTURES

During the year, the Company entered into discussions around two new ventures being Deep Exploration Well ("DEW") and OSII. DEW is an Abu Dhabi National Oil Company (ADNOC) and Qatar Petroleum (QP) joint venture while OSII is ADNOC sole risk. The Company has initiated the drilling engineering study in relation to DEW but no final agreement for either projects have been signed yet.

The Company maintains separate books of accounts for both ventures along with separate bank accounts. Included in debtors balance at year end are amounts of US\$ 360,980 and US\$ 11,140 due from DEW and OSII ventures respectively. An amount of US \$ 17,039 has been deducted from the cost for the year for the administrative fee being charged to ADNOC and QP on the DEW venture.
